Topic Theme: Macintosh Computer Evolution

I. Proposed Content Outline

Era by era content spread. With each era revolving around the most prominent Macintosh computers. The timeline begins from the birth of the first Macintosh all the way from 1984, all the way up to the present Apple Silicone Era.

1984 - 1990 The Birth of the Macintosh

1984 - 1993 - Classic Mac Os Era

1994 - 2000 - PowerPC Era

2001 - 2015 - Mac OS X Era

2006 - 2019 - Intel Mac Era

2020 - Present Date - Apple Silicon Era

Technology Stack Plan

I. Proposed Interactive Element

Clicking each icon of the era opens architecture details, CPU transitions, and historical context with/without animations. Each era changes the website style to match the GUI of that era

II. Proposed Virtual Exhibit Layout

The exhibit will target desktop and laptop devices as the primary platform due to the complexity of interactive components and museum-style layout requirements.

The following images showcase the planned layout while navigating the website.
